

COP certification - Conformity of production of vehicles or vehicle components

Are you a manufacturer of vehicles or vehicle components. Do you possess European or NKS (National Small Series) Type approvals? Approaching Vinçotte is an excellent first step to becoming a COP certified company!

Your tailor-made solution

Vinçotte certifies quality management systems related to conformity of production, in other words, the initial assessment, the measures relating to conformity of the production, and the follow-up measures for inspection.

As a manufacturer, you are obliged to implement suitable procedures to ensure that your production conforms to the approved types.

We also offer you the profitable option of combining your ISO 9001 certificate with a COP audit. Enquire about our total package !

An ISO 9001 certificate covers all the aspects of the initial assessment.

Vinçotte is an inspection body accredited by BELAC (Belgian Accreditation Body), and is notified by the Belgian authorities (e6/E6) to the European Commission as a Technical Service in several categories.

You can count on more than 40 years of experience in homologation.

Your result

A high quality service with a guarantee of the smooth handling of your file.

Please note

Legislations

- Directive 2007/46/EC relating to type approval of motor vehicles and their trailers, systems, components and separate technical units
- Directive 2002/24/EC relating to the type-approval of two and three-wheel motor vehicles
- Regulation (EU) 168/2013 on the approval and market surveillance of two-or three-wheel vehicles and quadricycles
- Directive 2003/37/EC for agricultural or forestry tractors, their trailers and interchangeable towed machinery, together with their systems, components and separate technical units
- Regulation (EU) 167/2013 on the approval and market surveillance of agricultural and forestry vehicles
- 1958 Agreement of the United Nations Economic Commission for Europe (UNECE) – wheeled vehicles, equipment and parts which can be fitted and/or used on wheeled vehicles.

Norms and standards

ISO 9001 standard relating to the requirements for quality management systems.
