Scope

On behalf of the Air Liquide South West Europe entities, Vinçotte performed a claim validation of liquid carbon dioxide labelled “ECO ORIGIN” and sold by Air Liquide in 2025. The validation was performed by Vinçotte in accordance with the methodology and procedures set out in the Claim Protocol Validation report¹ and the Verification Protocol Report². The Claim Protocol and the Verification Protocol were developed according to the ISO 14020:2022 “Environmental labels and declarations – General principles” and ISO 14021:2016 “Environmental labels and declarations – Self declared environmental claims (Type II environmental labelling)”.

The product concerned by the Claim is: liquid carbon dioxide (all qualities). To produce the quantities of aforementioned product, sold to the customers, Air Liquide South West Europe entities are committed to:

- Use renewable energy generated in France, Italy, Portugal or Spain for the production of aforementioned product;
- Use an equivalent amount of biogenic CO₂ sourced in Europe for the quantities delivered to the customers as well as for CO₂ losses during production and transport.

with REMBO and PG

Declaration of independence

The validation was carried out by Vinçotte as an independent third party.

Conclusion

Based on the work undertaken, it is the conclusion of Vinçotte that:

- All direct electricity consumption associated with the production of the aforementioned product is fully covered through the procurement of an equivalent quantity of renewable electricity generated in Italy, Spain, Portugal and France;
- An equivalent amount of biogenic CO₂ was used in Europe for the delivered quantities to the customers as well as for the CO₂ losses during production and transport;
- The Product Carbon Footprint of the aforementioned 'ECO ORIGIN' product has been accurately updated using 2025 activity data, in accordance with the methodological requirements of ISO 14067:2018.
