1495-131 Algés  
Portugal

#### Scope

On behalf of the Air Liquide South West Europe entities, Vinçotte performed a claim validation of liquid nitrogen, liquid oxygen, liquid argon and liquid CO<sub>2</sub> labelled “ECO ORIGIN” and sold by Air Liquide in 2025 as packaged gases. The validation was performed by Vinçotte in accordance with the methodology and procedures set out in the Claim Protocol Validation report<sup>1</sup> and the Verification Protocol Report<sup>2</sup>. The Claim Protocol and the Verification Protocol were developed according to the ISO 14020:2022 “Environmental labels and declarations – General principles” and ISO 14021:2016 “Environmental labels and declarations – Self declared environmental claims (Type II environmental labelling)”.

The types of products concerned by the Claim are: liquid nitrogen, liquid oxygen, liquid argon and liquide CO<sub>2</sub> (all qualities). To produce the quantities of aforementioned products, sold to the customers, Air Liquide South West Europe entities are committed to use renewable energy generated in Europe.

### **Declaration of independence**

The validation was carried out by Vinçotte as an independent third party.

### **Conclusion**

Based on the work undertaken, it is the conclusion of Vinçotte that all direct electricity consumption associated with the production of the aforementioned products is fully covered through the procurement of an equivalent quantity of renewable electricity generated in Italy, Spain, Portugal and France.
